A GUIDE FOR DOWN TO EARTH KITCHENS

“

For me, the design of the house always starts in the kitchen. Having designed kitchens for over 10 years, I've created this collection with all my favorite elements in mind.

ABOUT THE CABINETS

Lauren Liess & Co. has partnered with Unique Kitchens and Baths to develop a collection of cabinetry that has all of the elements we love so much, down-to-earth natural materials, timeless door styles and silhouettes and true craftsmanship.

"Tired of thick plastic-like factory coatings, I hand-finished the cabinets in my own home so they would look and feel like true antiques and began having the same done in my clients' homes. I found myself wanting to be able to specify these super-custom cabinets on a larger scale and to be able to recommend them to people other than my own clients, so I partnered with UKB to develop this collection of cabinetry that has all of the elements I love so much"

MEASURE YOUR SPACE

*See downloadable Measuring Guide on following page. Scan and email layout to uniquekitchensandbaths@yahoo.com

CUSTOM DESIGN BEGINS

Once existing layout is reviewed, a design fee will be proposed at which time you can decide to proceed.

DESIGN PACKET APPROVAL

Once design approval is achieved, an invoice will be sent and is due in full. We will send a signoff packet. Your signoff packet will include the plan and elevation list. Once order is placed, your design fee will be credited to your order.

DELIVERY TIMELINE

Payment must be received in full before production can commence. Please allow up to 10 weeks for delivery. Delivery available across the continental USA.

Please Note:

We are not responsible in any way for measurements you provide. We recommend you have your designer or installer verify all measurements carefully. If you are not working with a designer, please contact UKB about our referring designer list.

STEPS TO MEASURE YOUR SPACE

1

Step One: Your Kitchen Shape

Draw your kitchen as a box showing all walls and openings. Make sure to mark all openings with labels (ie: door, window, etc.).

2

Step Two: Measuring

Go from edge to edge with a tape measure and mark everything. This includes wall lengths, opening lengths, ceiling heights and appliance spaces.

3

Step Three: Your Layout

if you have an idea or change you want to make, let us know! Feel free to draw your ideas of what you would like to include in your new kitchen.

4

Step Four: Appliances

Make note of the sizes and specs of any appliances you have or plan on purchasing for your new kitchen.

Who can we thank for your referral?

A large grid of graph paper for taking measurements. The grid consists of 20 columns and 20 rows of small squares. A vertical line is drawn after the 5th column, and a horizontal line is drawn after the 5th row, creating a header area in the top-left corner. The rest of the grid is a continuous pattern of small squares.
